KNCS HIGH SCHOOL COMMENCEMENT

Thursday, June 3, 2021 at 7:00 P.M.

Smith pavilion at 741 Old Philly Pike; Kempton; Pennsylvania 19529

All students, families, and friends are warmly welcome.
(We encourage increased seating distance between families. Thank you.)
Please join us for visiting and light refreshments following the ceremony.

KNCS Staffing Updates for the 2021/2022 School Year: We are pleased to announce that Derrick Lumsden will be the new high school science teacher for the Kempton New Church School next year!

Derrick's college career began at Georgia Tech, where he took courses in science and math as part of an engineering program. He ended up becoming interested in teaching and earned a degree in history and elementary education from Bryn Athyn College, eventually moving on to theological school and becoming a minister, serving in Westville, South Africa and Sarver, Pennsylvania. As you likely know, Derrick has been living in Kempton with his wife Eden and their six children since 2019, working for the family tree business. In applying for the position, Derrick wrote, "I love to teach the Word and would enjoy bringing the sciences to life within the light of the Lord's revelation." He also said, "The same affection for the application of sciences which drove my interest in engineering would be reflected in my desire to bring the sciences to life in relevant applications for the students." Derrick will also be helping Brett with pastoral uses, primarily by providing school chapels each month. I look forward to him joining the team and bringing all he will to the school.

We are also pleased that Tabitha Judson will be teaching our human body course to the 7th and 8th grades. (She also happens to be an R.N., which is appropriate!) Tabitha taught earth science to these grades this year, and we are grateful for her willingness to continue teaching middle school science.

Becky Cooper, we are happy to say, will be adding two new pieces to her responsibilities – 6th grade math and 3rd - 6th grade physical education. We are grateful to Becky for these additional KNCS uses she is willing to serve next year.

I would also like to thank Rob Zimmerman for teaching 10th grade geometry this past year, and for teaching computer science courses to the 11th and 12th grades in past years, which have been valuable contributions. Rob needs to allocate his time to his day job and will be unable to continue with us. We are grateful Rob has been willing to serve in the school, and for the positive and cheerful presence he was in the high school first thing in the morning! We wish him the best with his future endeavors. – Dale Smith

Even More Help Wanted: Person or people still needed to weed gardens. Anytime. We are also looking for someone to paint a large room with a cathedral ceiling. – Susan Henriques

Lost and Found:

1. Yellow plastic “Finding Dory” (kaleidoscope?) thing
 2. Rusty trowel with blue handle (“Ames”)
 3. Black pull-on knit (ribbed) hat that seems to be at least partly cotton. Adult size
 4. Dark grey rubberized work glove with blue wrist (“Northflex Cold Grip”)
 5. Lightweight light grey “Aeropostale” hooded sweatshirt with front zipper and aqua accent. Women’s XS
 6. (Nice!) black & olive green hooded lightweight “Columbia” jacket/shell w/zippered front vents. Men’s 3X
- Please contact Carla at church office. Thanks.
